

# CHURCH NEWS

Thank you to our editors for the pictures and quizzes in the July/August issue. The last set which was the fruits of the spirit displayed on the door were most effective.

Further news of our congregation includes Grace off to work in France and Nathan with some excellent A level results.

Barry from the Mayfield Care Home has moved to an Alton home. We shall miss him; he has been faithfully coming to our church for many years first with companion Susan and then on his own. We do wish him well over in Alton where there is a Methodist Church but further away with too many roads to cross.

We are all thankful that Trudy and Peter recovered from the Covid virus although Trudy now works from home.

Joyce who had the virus in her care home, was the only one and also recovered. I would like to mention that Joyce was nursed by two carers who slept on the premises and did not work with other members of the care home or see their families for two weeks. This to me was a typical experience we were hearing about carers and I admire their dedication. Joyce is now frailer, receiving visitors but only one at a time and there is an appointment system operating at the home.
